

Anna Pingsmann

Frontend Developer with Full-Stack Experience

Based in Berlin

Frontend developer with full-stack experience and a background in architecture. I build clean, user-focused interfaces and understand how frontend decisions connect to backend structure and data. My projects include responsive web applications and a cross-platform mobile app built with modern JavaScript technologies.

I bring structured thinking from architecture, customer-facing communication from hospitality, and strategic experience from ad agency work. Multilingual in German, English, and Japanese and I am ready to contribute to international teams from day one.

Recent Projects:

Job Tracker *React · Node.js · Express · MongoDB*

- Independently designed and developed a full-stack application from scratch post-program, covering data modeling, REST API design, and overall system architecture
- Built a kanban-based workflow with drag-and-drop interaction and consistent state synchronization between frontend and backend

Local Loop *React Native · Expo · Firebase · AsyncStorage*

- Developed a cross-platform iOS/Android chat app from a single codebase: Firebase Firestore for real-time messaging, Anonymous Auth for zero-friction onboarding
- Offline-first architecture: messages cache locally via AsyncStorage, and auto-sync on reconnection using NetInfo, ensuring functionality without a live connection
- Native device integration end-to-end: camera, image picker, media uploads to Firebase Cloud Storage, and live location sharing via react-native-maps

DarkFrame *React · Node.js · Express · MongoDB · JWT*

- Full-stack movie discovery app with personalized watchlists and JWT authentication: protected REST endpoints server-side, token storage and route guarding client-side
- Architected separation of concerns across client and server: modular Express routes, MongoDB data layer, and component-based React UI

Experience:

Hospitality & Service • Derag LivingHotel, Berlin • 05/2025 - Present

- Ran bar and restaurant operations independently, supervised and mentored staff, and delivered guest-facing communication in German and English under pressure

Strategy Intern • Anomaly Creative Agency, Berlin • 09/2024 - 12/2024

- Delivered consumer research and strategic analysis for international clients and their global campaigns (Lipton, Zalando, Tonnies & Aston Martin)
- Operated in a cross-functional team across strategy, creative, account, and production

Construction Management • Project Immobilien, Berlin • 03/2021 - 08/2021

- Monitored quality control and contractor compliance across active build sites; liaised across site teams, planners, and external partners

Education:

Additional Technical Training • StackFuel • 04/2026 - 06/2026

- SQL & Relational Databases Certificate as well as a Python Basics Certificate

Software Engineering Certificate • CareerFoundry • 06/2025 - 03/2026

- Completed an intensive, project-based full-stack program while employed, covering front- and backend development, APIs, databases, authentication, testing, and cloud deployment
- Applied modern development practices including TDD, CI/CD pipelines, Git workflows, and deployment with AWS, Heroku, and Netlify

Architecture, Bachelor of Science • Berliner Hochschule für Technik • 10/2019 - 04/2024

- Bachelor's thesis on "Co-Leisure Space" with independent research, design development, and technical documentation; final grade: 1.0
- Developed a structured, systems-thinking approach and gained international experience through an Erasmus exchange semester at Hogeschool van Amsterdam

Skills and Tools:

Frontend

JavaScript · HTML · CSS

Frameworks

React · TypeScript ·
React Native · React Router ·
Expo · Bootstrap

Backend

Node.js · Express · REST APIs ·
JSON · Postman · JWT/Auth ·
Python Basics

Databases

MongoDB · Mongoose · SQL ·
PostgreSQL · Relational
Database Design

Cloud & Hosting

AWS · Firebase (Firestore) ·
Cloud Storage · Netlify ·
Vercel · Render · Heroku

Dev Practices

Git · GitHub · Agile · CI/CD ·
Test Driven Development ·
Debugging

UX/UI Basics

Personas · User Stories ·
User Flows · Responsive
Design · Accessibility

Languages:

German - Native
English - Fluent
Japanese - Native
Italian - A2
Portuguese - A1
